MANDOLINS AND GUITARS. All Kinds of MUSICAL MERCHANDISE

OAKLAND.

Names belonging in Fruitvale and Emeryville will be found in the Oakland portion of the work, as it is found more satisfactory to have them arranged in this manner, owing to the boundaries being so indefinite, and it will lessen the trouble of searching for names.

is not all a matter of money, although that counts for much. But there's satisfaction in feeling that whatever you are doing is being done right. The printing you use, for example: If we furnish it, you will have the satisfactory certainty that it is the best of its kind that can be done anywhere. Our up-to-date facilities and crafty workmen enable us to turn out **PRINTING THAT ATTRACTS**. Good printing has built up our business, it will yours. The quality of a merchant's goods are often judged by that of his printing. Is your printing in touch with the line of goods you carry? Is it satisfactory? If not, call and see us—ring us up by telephone (**Red 3295**) and we will call on you.

PLACES OF INTEREST AND GENERAL INFORMATION.

The beautiful City of Alameda is situated upon the eastern shore of the Bay of San Francisco about six miles distant from the City of San Francisco. The peninsula is formed a great deal like a human foot-print and is nearly surrounded by the waters of the bay and its tributaries. From shore to shore, and inside the city limits, are 2,220 acres of land. The soil is rich dark loam, and flowers and trees planted, grow to perfection. The entire city is dotted with wide spreading oaks which tend to give it the appearance of an old park, the site of hundreds of beautiful and costly residences. There are about fifty miles of macadamized streets, the walk or ride through which unfolds to the visitor a thousand charms. It is pre-eminently a city of homes, of green trees, of flowers, of women and children, of domestic and social life. It is a city of schools, and free from lawlessness. It is a city to which good people with families are attracted, to which they are at once attached, and from which they go with regret and with the hope of a speedy return.

There are two steam railways extending the entire length of the city, with 14 stations, zig-zagged, as it were on both. Over these lines are run 63 trains each day from San Francisco and the single fare is ten cents. Commutation or monthly tickets, \$3. These trains connect with boats that leave San Francisco on the quarter and the half hour daily. From the hour of 10 o'clock a. m. on week days to 3 p. m. the broad gauge boats leave San Francisco on the hour; Sundays every half hour all day.

The water and the climatic conditions are the most favorable for bathing, boating and fishing, evidence of which may be observed daily in the surf at the beach and by the elegant boat houses built on the shore, notably the Encinal Yacht Club's home on the bay shore and the Alameda Boat Club's rendezvous on the estuary side.

The sewers of the city are unexcelled by any in the world. None larger than eight inches and they are flushed twice every day by the rise and fall of the tide and between tides by automatic flush tanks.

This city is the "cyclers' paradise" and it is said that any vehicle will last five times as long here as elsewhere. The highest point is 29 feet above tide water and the lowest point is 15 above it, consequently there are no grades, but long, tree lined, level avenues.

ALAMEDA.

The water is freshly pumped from artesian wells, is clear and healthful, and is sold at the rate of 30 cents per 1000 gallons.

The gas supplied is of good quality and cheap; for lighting it is supplied for \$1.50 per 1000 cubic feet, and for heating \$1.25 per 1000 cubic feet.

Fruit and farm produce is sold direct to the consumer from the producer and is thus fresh and at a reasonable figure.

An electric road with cars under small headway and under good management, runs through the city and through Oakland, thus forming a loop and it is well patronized.

One might enumerate and keep on for days expatiating and enlarging on the beauties and advantages of a residence here, but by reference to the next page one may see a general summing up of the many points of advantage of a residence on the "Encinal de Alameda."

FOOD AND MILK INSPECTION.

In November, 1893, the Board of Health of the City of Alameda took up the matter of food and milk inspection by preparing and ordinance which the Board of Trustees passed November 13th, 1893, entitled, "An Ordinance Authorizing the Inspection of Food and Milk and Prohibiting Any Person From Selling, Offering for Sale or Distributing Any Impure, Unwholesome or Adulterated Milk, Cream or Food, or Resisting the Inspection, Seizure and Destruction of the Same," which ordinance laid the foundation for a thorough inspection of all food stuffs, milk and its products, and all dairies supplying milk in the city. Since the passage of this ordinance the city has employed a competent, duly qualified Veterinary Surgeon to conduct a systematic inspection of all grocer, butcher, baker and produce shops, also all dairies supplying milk and the cows thereat, and a monthly report is issued as to the sanitary condition, food stuffs fed the cows, per centage of butter fat and cream of each individual dairy. This report is posted on a blackboard in the rooms of the Board of Health where it remains from one month to another.

Adjoining the Board of Health rooms is a well equipped laboratory for the purpose of testing milk or other food stuff. There is also connected with the Health Department an official Bacteriologist who makes microscopic examinations of contagious diseases, milk and food.

Turn Over....

A new leaf on the first of the new year and let us do your printing during 1899. It may prove a profitable change for you.

The business methods of firms are frequently judged by the stationery used. An attractive letter, or bill head, costs very little more than a poorly printed one, and yet the impression created is vastly different.

Fine printing is our forte. No other office in this city can give you as good service as ours. Come and talk it over with us.

Your Uncle Samuel

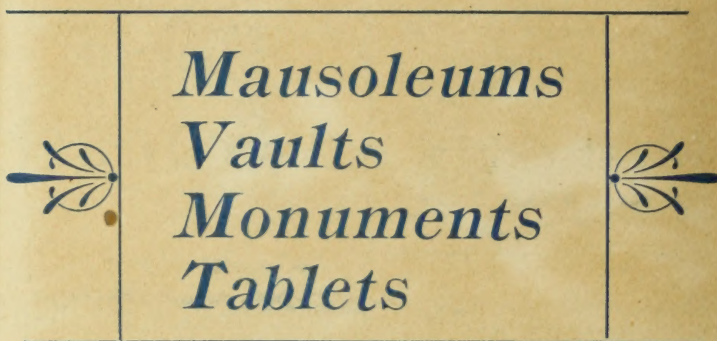

Will take his ease this year with even more than his usual good nature. The war and the fall elections are both over and his women folks have discovered during 1898 that Gas will not only light their houses but can be used for both cooking and heating in 1899.

Turn Over....

A new leaf on the first of the new year and let us do your printing during 1899. It may prove a profitable change for you.

The business methods of firms are frequently judged by the stationery used. An attractive letter, or bill head, costs very little more than a poorly printed one, and yet the impression created is vastly different.

Fine printing is our forte. No other office in this city can give you as good service as ours. Come and talk it over with us.
